2019-2020 PROGRAMMING EXPERIENCE

Junior Web Developer   IT at Pensacola Christian College, Florida
Summer, Christmas break

Worked with ASP.NET, JavaScript, and the rest of the web stack, while approved by code review, designers, and quality assurance. Used Mercurial in a version-controlled workflow.

- Updated 5 college-related websites to the newest version of jQuery.
- Improved the C# production code's complexity using NDepend quality metrics.
- Corrected hundreds of JavaScript and HTML errors flagged by our quality assurance dashboard.

PERSONAL EXPERIENCE

Self-taught HTML/CSS, Git, Jekyll, and some JavaScript during high school, and created personal websites as a hobby during that time.

- Published *Minesweeper Basic* to the Windows Store following a college project.
- Programmed Unity flight and flotation simulations *(GitHub.com/DenisLabrecque/Warglobe)*.
- Created and deployed *Receptus* to the Windows Store as an original idea for surfing a book *(GitHub.com/DenisLabrecque/Bible-Browser)*.

2018 DESIGN EXPERIENCE

Web and Graphic Designer   Studio Grafik, Sorel-Tracy, Québec
Summer work

Maintained and created business websites in WordPress and HTML/CSS/PHP. Designed promotional media and kept in touch with clients to help them advertise.

- Redesigned the business' website and updated its magazine using InDesign.
- Created Google and Facebook ads, print ads, and WordPress websites.

Graphic Design Intern   Liberty Baptist Church, Las Vegas, Nevada
Three-week internship

Assisted the media director. Created print materials, posters, and digital signage for church activities. Created a design for 115,000 post cards that were distributed throughout the city that summer.

2015-2020 ACADEMIC EXPERIENCE

3.6 GPA   **B.S. in Computer Information Systems**   Pensacola Christian College, Florida
B.S. in Graphic Design
December 2020 graduate (156 credits completed)

Helped lead 5 team members to code an online testing software. Was relied on heavily for advice with ASP.NET, JavaScript, and CSS/HTML interface design. Core courses included mobile application programming, C++ object-oriented programming, .NET programming, and a few others. Graphic design studies included web design, advertising design, and digital multimedia production.
